

GLOBAL

PERSONNEL CERTIFICATION SCHEME

CERTIFICATION PROGRAM

USE OF CERTIFICATE AND LOGOMARK

GLOBAL provides no logo for use by other entities and does not authorize its use by other entities or certified persons. GLOBAL issues certificates only to people who meet all certification requirements for a specific Qualification. The issuance of the certificate does not authorize certified person to use the GLOBAL brand but only the certificate issued in his name, under the conditions of the commitments made by the person with GLOBAL.

Competence Centers accredited by the GLOBAL can mention this in the disclosure of tests that are directed to obtaining registration of professionals but cannot use the logo of GLOBAL in this disclosure as if they were part or belonging to GLOBAL.

GLOBAL is to be accredited by different Accreditation Bodies for specific Exams of also different Certification Programs. The advertising and use of marks of each Accreditation Body is clearly connected with the accreditations retained in each Certification Program. GLOBAL takes all the care to avoid any confusion or misleading information related to the accreditations retained. GLOBAL takes also care that Examiners and Competence Centers are aware of the accreditations of the Exams and the procedures for proper advertising and use of the marks.

The Competence Centers or the Examiners can not use the marks of the Accreditation Bodies as if they were accredited as long as GLOBAL is the only accredited entity.

When requesting certification every person explicitly agrees to fulfill all relevant requirements of the Certification Program applicable to the required qualification, agreeing also to clearly indicate in all circumstances the Qualification in which his certificate applies, with the scope and limitations. Agree not to use the certificate to create situations that might lead GLOBAL to disputes due to statements or actions that may be considered misleading or unauthorized. Agree not to use the certificate or make statements that are certified in cases of suspension or cancellation of the certificate. Agrees to return any printed copy of the certificate to GLOBAL in cases of cancellation of the certificate valid until a future date.

Deviations detected in the use of the certificate or logomark are registered as nonconformance, being taken immediate action to correct the failure and promoted the corrective action to prevent recurrence. Records are kept.
